

# GCSE RESULTS 2022

STUDENTS FULFIL THEIR ASPIRATIONS

Early morning on Thursday 25th August, staff joined our Year 11 students to celebrate the release of their GCSE results. Emotions were high because students were keen to fulfil their aspirations, which in turn would allow them to move on to the next steps in their academic journey, or pursue alternative pathways. Students have worked incredibly hard in these unprecedented times to ensure their futures were not compromised because of a global pandemic; their might and determination was second to none.

Students at Rosedale College are continuing to improve in both their attainment and achievement. The College is continuing to perform on an upward trajectory, which is a true testament to the highly motivated and committed staff we have. Our successes are visible in both academic and vocational subjects, which is indicative of our holistic approach to education. Overall, 63% of our students achieved five strong passes at GCSE including English and Mathematics, which is above the national average of 60.3%. Our English GCSE strong passes at grade 5 and above reached an impressive 70% against a national average of 61%, with Mathematics strong passes at grade 5 and above achieving 67% against a national average of 56%.

Some of our exceptional successes are shown in the tables below: .

We endeavour to continue enriching their thirst for learning when they join us at Post 16. We wish all students the best with all their future endeavours, and remain convinced our students will continue to excel in the path they have chosen to pursue.
