

What are the aims and intentions of this curriculum?

The aims and intentions of the History Curriculum is that students can have deeper knowledge of the various History topics. Through this they can remember long term the content that they have been taught and integrate new knowledge into larger concepts. Additionally, students are expected to develop the range of skills needed to become confident in their own opinions, make well supported judgements and expressing them articulately using keywords from topics taught and include historical vocabulary. The students are also expected to sit trial examinations to develop and nurture stamina and technique over time. This is to prepare the students for the end of KS4 GCSE History examination where they are expected to employ all the skills and content taught over the two-year period. Finally, the students are expected to become well rounded, healthy, and resilient learners. Through this they are emotionally and mentally prepared to cope with the demands of learning and the pressures, which adolescent years can bring.

Term	Topics	Knowledge and key terms	Skills developed	Assessment
Summer 2	Anglo Saxon Norman England	<ul style="list-style-type: none"> The battles of Gate Fulford and Stamford Bridge. The Battle of Hastings <p>Establishing Control</p> <ul style="list-style-type: none"> The submission of the Earls, 1066 <p>Rewarding followers and establishing control of the borderlands.</p> <ul style="list-style-type: none"> Rewarding Anglo Saxon Loyalty Rewarding William’s followers Establishing control of the Borderlands Reasons for building castles. <p>The Causes and Outcomes of Anglo-Saxon resistance, 1068-71</p> <ul style="list-style-type: none"> The revolt of Edwin and Morcar in 1068. Edgar the Aethling and the Rebellions in the North, 1069 The Anglo-Saxon Danish attack on York. Hereward the Wake and rebellion at Ely, 1070-71. <p>Students will develop their research skills, which are essential to the careers that they would like to pursue..</p> <p>Students will appreciate the importance of protest. They will compare and contrast the impacts of protest in the past and protests in modern society.</p>	<p>Students will be engaged in topics about Anglo Saxon and the beginning of Norman England.</p> <p>They are expected to develop</p> <ul style="list-style-type: none"> Critical thinking skill.
